## TERMS OF BUSINESS, ETC.

**ORDERING.**—When ordering, write plainly name and address (state whether MR., MRS., or MISS), also postal address, and state nearest Railway Station. (THESE OMISSIONS FREQUENTLY CAUSE CONFUSION.) All orders are dispatched as early as possible on receipt and, should delay occur, clients are advised at once.

**SUBSTITUTION.**—Should the stock of any variety ordered be exhausted, we shall, to save delay, send in its place the most suitable substitute, unless instructed to the contrary.

**NEW CUSTOMERS.**—Customers with whom we have not previously transacted business are requested to remit with order or refer us to some reputable Melbourne person or firm as guarantee of good faith.

**PRICES.**—Owing to the dependency of seed crops on weather conditions, prices are liable to fluctuate, but as far as possible the rates shown in this Catalogue will be adhered to throughout.

**PRICES LISTED IN THIS CATALOGUE** are those ruling at the time of issue, but ARE SUBJECT TO ALTERATION WITHOUT NOTICE. Providing the order is over 1/- in value, WITH THE EXCEPTION OF PEAS, BEANS, AND SWEET CORN, the prices quoted for packet seeds are post free. Prices of Vegetable Seeds in bulk, Peas, Beans, and Sweet Corn in packets, Farm Seeds and General Sundries are all understood either ex store, F.O.R., or F.O.B., Melbourne, or in the case of postal parcels, postage extra. THIS CATALOGUE CANCELS all previous lists.

**PACKING.**—We charge cases and packing at (as near as possible) cost price.

**DELIVERY.**—All goods are delivered free to Wharfs, Railway Stations, and Carriers' Offices at Melbourne, after which our responsibility ceases, and goods travel at purchaser's risk.

**TERMS.**—All goods are supplied on the terms of monthly

account, and unless stipulated otherwise on the invoice (E. and O.E.) a discount of 2½ per cent is allowed off Flower Seeds, Vegetable Seeds, Fruit Trees, and Plants paid for within 30 days of the date of invoice. Farm Seeds, Manures, Spray Compounds, and other lines included in the Sundry pages of this Catalogue are sold on a strictly net basis, whether stipulated at time of sale or not.

**REMITTANCES.**—Payments may be made by cheque (Crossed and marked "Not Negotiable"), Bank Draft, Postal Note, or Post Office Order. New Zealand, Fijian, and other overseas clients are requested to remit by Bank Draft, and not by stamps or postal notes, which are not negotiable in Australia. Exchange must be added to all country and interstate cheques, the rate being 6d. for Victoria and 1/- for Interstate.

## NON-WARRANTY CLAUSE

All our Seeds, Plants, Bulbs, and Tubers are offered and sold subject to the following Conditions of Sale as laid down by the Seed Merchants' Association of Victoria—"The description under which our Seeds, Plants, Bulbs, and Tubers are sold signifies no more than that we believe they have been taken from reliable stocks, and in no case does the description signify that the resultant crop will grow true to our description. Owing to many difficulties beyond human control and other causes, we give no warranty, expressed or implied, as to the description, growth, quality, purity, or productiveness of the seed or other goods, and will not be responsible for the resultant crop. Moreover, the liability (if any) in respect of the goods actually delivered is limited to the price paid to us for the specific seed or other goods in respect of which any claim may be made, or 25, whichever is the greater. If these Conditions of Sale are not acceptable, the buyer must immediately return the goods."

## PASSENGER TRAIN RATES—PREPAID.

NOTE.—25 per cent extra freight is charged on all Passenger Train Parcels within the State unless prepaid at Melbourne.

# General List of Flower Seeds

**ANNUALS.**—Flower, produce seeds, and die the same year as they are sown. **BIENNIALS.**—Those which are sown in one year, and bear their flowers and seeds and die the next. **PERENNIALS.**—Those which grow and flower for several years, usually blooming the second year from seed.

**SUBSTITUTES.**—Should the stock of any variety ordered be exhausted, we shall, to save further delay, send in its place the most suitable substitute, unless instructed to the contrary.

**ABBREVIATIONS.**—H., Hardy; H.H., Half-Hardy; A., Annual; B., Biennial; H.B., Hardy Biennial; P. Perennial; Gr., Greenhouse; Cl., Climber; Trl., Triller; Herb., Herbaceous. Thus H.H.A., Half-Hardy Annual; Herb.P., Herbaceous Perennial, etc.

## SEED SOWING.

A large percentage of the failures experienced in raising seeds is due to the following causes:—

1. Using unsuitable soil for covering. Sifted, well-decayed cow manure will give the best results.
2. Sowing too deeply or not covering sufficiently.

3. Allowing the surface of the soil to become dry.
4. Omitting to provide some sort of covering during hot weather.
5. Sowing while the soil is too cold or too wet to permit germination.

**IMPORTANT.**—When ordering, please give number only, also number of this Catalogue, 130.

## PANSY

### OUR GREAT SPECIALTY.

H.A. (Sow from January to September.)

We make Pansies one of our specialties, and spare neither expense nor trouble in procuring direct from the growers the finest strains obtainable.

### ROGGLI'S GIANTS IMPROVED EXHIBITION STRAIN. Awarded Prizes Wherever Shown.

668. The flowers of this improved strain are of enormous size, measuring from 3 to 3½ inches in diameter. They are perfectly round, with overlapping petals borne on long stalks well above the remarkably luxuriant foliage. It is not only the size of the flowers that makes these Pansies so attractive, but the glorious shades of colour, and their exceptional brilliancy, many of them possessing a velvety sheen, which greatly enhances their beauty. Practically all flowers are 3 to 5 blotched . . . . . 1/6, 2/6, and 5/- pkt.

## WINTER-FLOWERING PANSIES.

If seed of this strain is sown from December to February (the earlier the better) the plants will produce their large flowers in great profusion in the winter and will continue to bloom throughout the spring and summer. When the value of this class of Pansy for winter display is fully realised, they are destined to become very popular. They are exceedingly free flowering, which adds to their usefulness for bedding or bordering purposes. A bed of the beautiful azure blue coloured variety, "Celestial Queen," bordered with "Winter Sun" (yellow) is most effective. When planting for a winter display, select a warm, open position, if possible.

## GILL & SEARLE'S FLOWER SEED MIXTURE

This is not a mixture of wild-flowers, but of garden annuals. It contains a large number of different kinds, all of them quite hardy and varieties that will grow with the least amount of care and produce quantities of flowers for a long period. Indeed, there are so many kinds appearing in endless succession that it is a continual surprise from the time the first plant begins to blossom. We recommend it for vacant plots and waste pieces of ground. 6d. oz.

## SWEET PEAS

Sweet Peas—continued

## SWEET PEAS.

### LATE (SUMMER-FLOWERING) SPENCER VARIETIES—GIANT RUFFLED TYPE.

(Sow from March to August.)

The main characteristics of this new type are the duplexness and extra fullness of the flowers. This imparts a double appearance to the large wavy flowers, the frilliness extending even to the edges of the wings. Distinct, beautiful, and interesting.

Collections of late-flowering Ruffled type Sweet Peas—6 Varieties, 2/6; 12 Varieties, 4/6.

## Gill & Searle's INCOMPARABLE LAWN MIXTURES

(None of which include Clover).

### A1 MIXTURE.

For Bowling Greens, Tennis Courts, and Croquet Lawns.

To produce a fine textured Lawn with that deep green, cool velvety appearance, sow A1 MIXTURE, which is composed entirely of the finer, most expensive Lawn Grasses. Although the initial cost is a little in excess of our other Lawn Mixtures, which contain a percentage of the coarser grasses, it is actually cheaper when the fact that it contains a far greater number of seeds, weight for weight, is taken into consideration, and therefore less seed is required to sow a space of similar dimension.

Price : Per lb., 3/- ; per bushel (20 lbs.), 45/-.

### NO. 1 LAWN MIXTURE.

This is a good general purpose mixture which contains a large percentage of the finer grasses.

Price : Per lb., 2/6 ; per bushel (20 lbs.), 37/6.

### NO. 2 LAWN MIXTURE.

This is a good and reliable Lawn Mixture that will withstand steady wear.

Price : Per lb., 2/- ; per bushel (20 lbs.), 30/-.

### SPECIAL MACHINE-DRESSED IMPORTED ENGLISH RYE GRASS FOR LAWNS.

This is a splendid quality, free from all foreign matter, specially saved from old pastures and thoroughly Perennial.

Price on application.

### BUFFALO GRASS (Roots Only).

Plant from September to December.

Makes an excellent lawn, particularly in dry districts. Grows well on any soil, and produces a good sward, even on pure sand. The roots should be planted during the spring and summer.

5/6 per half-sack ; 10/- per sack.

### SOWING QUANTITIES.

For a new lawn allow 1 oz. of seed per square yard, or 1 lb. per square containing 16 yards. For renovating old lawns sow at the average rate of  $\frac{1}{4}$  to  $\frac{1}{2}$  oz. per square yard or  $\frac{1}{4}$  to  $\frac{1}{2}$  lb. per square containing 16 square yards, according to the existing state of the lawns.

### DO YOU REQUIRE A GARDENER ?

We consider our "Gardener Supply Service" as very important, as a garden reflects more or less the qualifications of the person in charge. So one of the principals of our establishment pays special attention to this matter and to the best of his ability acquaints himself as to the merits and respectability of a gardener before recommending him. Clients, therefore, requiring permanent gardeners or casuals will please get in touch with us, when we shall be pleased to give them the benefit of our experience and knowledge in making a selection. We make no charge for so doing, this being part of "Our Service."
